

Hi. I'm Daniel Squires of Vincent's Heating & Plumbing.

With the situation going on, we're all in this together, and our company would like to offer some help to our community.

The Center for Disease Control now urges us to wear cloth face masks when out in public.

By themselves, cloth masks don't offer much protection.

However, by adding a full-size pocket -or pouch - MERV-13 filter material can be inserted into the pocket for better protection.

This is because MERV-13 filter material is rated to capture anything in the air down to 0.3 – 1.0 micron in size.

As our way of helping our community during this Coronavirus emergency, Vincent's Heating & Plumbing is providing FREE MERV-13 face mask inserts.

In addition, we have step-by-step directions for making a cloth face mask with a pouch - and how to sanitize them.

Here is what the MERV-13 mask inserts look like: [*show insert*]

And here is a cloth face mask with a pouch: [*show mask*]

You can request your FREE MERV-13 inserts - to be mailed - and find the info at VHPinc.com. You can also get find us on Facebook or google Vincent's Heating & Plumbing.

This is offer is limited to 2 inserts per address, while supplies last.

May God bless and protect you and your family and bring a speedy end to this crisis.

[*Put mask on*]
